July 2006

Carolina Visions

Greetings!

Have we got important information for you this month! If you're running Sage MAS 90 or 200, there are updates for you, and if you're running Sage MAS 500, Sage has announced the retirement of version 6.2.

Sage MAS 90 and 200 Service Pack 1 Available for Download

Jim Portner,
VP & GM

and 200
Accounting
Solutions

SAGE MAS 90 SAGE MAS 200

Sage Software is pleased to announce the immediate availability of Service Pack 1 for Sage MAS 90 and Sage MAS 200 ERP version 4.1. Download for existing customers is available from Sage Online Support Services. All new product shipments will include Service Pack 1 on a separate CD as part of the standard installation set. Service pack 1 replaces the former program-fix collection update process with a self guided installation wizard. In addition, we also took the opportunity to provide additional usability and performance enhancements including a redesign of the AR Aged Invoice report, Bank Reconciliation performance improvements, enhanced functionality for multipart printing and many other performance improving enhancements. For a recap of Service Pack 1, please review the [pre- announcement](#).

Service Pack 1 sets the stage for many exciting releases of Sage MAS 90 and 200 that will be launched over the coming months. Starting with Sage MAS 90 and 200 ACT! Link in September followed closely by Sage MAS 90 and 200 version 4.2. Over the month of June, we have previewed ACT! Link to many of you, and the reaction has been extremely positive. By combining these award-winning solutions and leveraging the latest integration technologies, ACT! Link is positioned to be the model by which future Sage MAS 90 and 200 integrations are based on.

Regarding current version 4.1, please be assured that after concluding months of testing, both internally and externally, we feel confident that version 4.1 with Service Pack 1 will provide you the level of dependability that both you and our mutual customers have come to expect and rely on from Sage Software. We encourage you to engage your customers and make appropriate arrangements to plan their upgrade to version 4.1 with Service Pack 1. A general announcement on the availability of Service Pack 1 will be sent to all Sage Online subscribed customers on Monday, July 3, 2006. Once again, thank you for your continued support.

Retirement of Sage MAS 500 ERP Version 6.2

The Monthly Updates and code fixes for Sage MAS 500 ERP Version 6.2 will end July 31, 2006. Customer support for Sage MAS 500 Version 6.2 will end on October 31, 2006. However, Sage MAS 500 Customer Support will continue to answer questions related to the upgrade process to a supported release. Prior to October 31, 2006, it is recommended you upgrade to one of the available supported versions of Sage MAS 500 (6.3, 7.0 or 7.05) with Version 7.05 being the recommended version. To receive 1099 reporting updates for calendar year 2006, customers must be running Sage MAS 500 Version 6.3 or higher.

If you have questions, please email John@oatesco.com.

Sage CRM

Do you think ACT! by Sage isn't robust enough for your CRM needs, or that Sage SalesLogix CRM is too much? Then consider [Sage CRM](#).

Sage CRM is an easy to use, fast to deploy, feature rich CRM solution providing enterprise-wide access to vital customer information - anytime, anywhere. With Sage CRM, you can better manage your business by integrating field sales, internal sales, customer care and marketing information.

Email Tammy@oatesco.com for more information on this great mid-level product.
